## Web Developer & Technical Maintenance Expert

### Work Experience:

#### **WEB DEVELOPER DURABLE PROGRAMMING**

MARCH 2022 – PRESENT

Working as a Web Developer at a maintenance programming firm specializing in assisting with performance issues, upgrading systems, and fixing bugs left behind by a previous developer. In this position, I enjoy finding and implementing solutions for the needs of different applications. I also wrote test data SQL files, debugged broken databases, and sometimes designed new databases. Experience with PHP, JavaScript, Ruby on Rails, Laravel, NodeJS, Yii framework, ReactJS, MySQL, Docker, Nix, and Linux.

#### **OWNER EGGHEAD FIXERS**

AUGUST 2019 – PRESENT

I currently run and maintain an easy-to-follow educational technology channel – one that doesn't just speak generally about solving computer problems but gives detailed solutions for repairing specific brands and models of personal computers so that an individual can learn to repair their own computer. In addition to this, I handle all of the filming, photography, and editing of photos and videos.

#### **SERVICE TECHNICIAN CONNECTICUT VALLEY COMPUTERS**

AUGUST 2019 – OCTOBER 2020

As a Service Technician, I traveled all over New Hampshire doing repairs of computers such as replacing LCD displays, hard drives, RAM, installing operating systems, and much more. I am Dell, HP and Lenovo Certified in Computer Repair.

#### **OWNER PC MONKEY, LLC**

MARCH 2015 – 2019

As one of the owners, I was responsible for the diagnosis and repair of 20-40 computers a week. I did repairs of computers such as replacing LCD displays, hard drives, RAM, installing operating systems, and much more. In addition to performing repairs and upgrades, I also was responsible for the complete rebuild of systems.
